

# DASL Version 9.0.1

Aug 21, 2008

## To all DASL Users:

DASL has been upgraded to Version 9.0.1. Below you will find information regarding the changes in this release. Please note that the changes in 9.0.1.8304 Alpha and 9.0.1.8318 Beta are included in this release. See the 9.0.1.8304 Alpha and 9.0.1.8318 Beta Release Notes for detailed information on those releases.

**NOTE:** Please make sure to read the 9.0.1 Installation Notes for additional installation information.

## 2. Notable Production Support Issues

The following section details some of the more significant Production Support issues by module.

### Reports / Screens Turned Back On

**IMPORTANT!** The following reports have been updated to accommodate FY09 EMIS and Assessment database changes and are now available in 9.0.1.

- Management – Import/Export – Pre-Identification Export (OGT and OAT)

Please note that the Pre-Identification Export has been enhanced to run at the District level. The export will create one file per district for the selected schools.

Home » Management » Import/Export » Pre-Identification Export

### Pre-Identification Export

From this screen, you can export data for a specific file format.

**Available Schools in District:** DAEL - DASL ELEMENTARY SCHOOL, DAHS - DASL HIGH SCHOOL, DAMS - DASL MIDDLE SCHOOL

**Selected Schools:** [Empty]

**Export Format:** PreIdent For Pearson Educational Measurement Export

**Test:** Ohio Achievement Test

**Include the following grades:**

- 3rd Grade
- 4th Grade
- 5th Grade
- 6th Grade
- 7th Grade
- 8th Grade

**Return only these students:** Comma separated Student Ids

Export

## Student Profile

Ticket(s): 721303; Immigrant Status displays 0/1 instead of Y/N

Ticket(s): 722563; EMIS Situation Field & How Received Field need to be extended to display all text

Ticket(s): 729844; can't update FS Standing record on student who previously withdrew

Ticket(s): 729202; Student Profile Edit screen times out when trying to save a new Program on General tab

### Changes

- Immigrant Status on the FD-Attributes-Eff Date tab now displays correctly as Y/N; all existing data was converted and the “invalid code” message no longer appears
- EMIS Situation, Howe Received, and District Relationship dropdown lists on the FS-Standing tab now display correctly without horizontal scrolling when screen resolution is 1024 x 768
- Saving a Program on the General tab no longer causes locking and a time out
- QAPR-219768 - The Student Profile Edit screen has been upgraded so that when the screen first loads for a student, any missing FN Time Period records for the student in the context year are automatically created.
- QAPR-219767 - If the user does not have any FS records, the Save button is now not shown on the FS-Attendance tab.
- QAPR-219709 - When an FS or FD record is edited, the screen now checks to see if the values on the updated record are the same as the values on the prior or subsequent FS or FD record. If so, the update is not performed, and the user is given a feedback message. Note: for the FD, the LEP Reclass Date is not included in the new logic, since it is a Student EMIS Time Period field.

The screenshot shows a web application interface for 'Student Profile Maintenance'. At the top, there is a breadcrumb trail: 'Home » SIS » Student » Edit Profile'. On the right side of the top bar, there are links for 'Advanced Search | Feedback | Mgmt | Help | V'. Below the breadcrumb, the title 'Student Profile Maintenance' is displayed in blue. Underneath the title, a message reads: 'From this screen, you can display and change information regarding a students profile.' Below this message is a horizontal menu with several tabs: 'General', 'Additional', 'Custom', 'Private', 'FS-Standing', 'FS-Attendance', 'FD-Attributes-Eff Date', 'FN-Attributes-No Date', and 'Transportation'. The 'General' tab is currently selected. At the bottom right of the interface, there is a timestamp: 'Last Modified: 07/2/2007 8:53 AM by User: noacsc.christine'.

## Student Profile Bulk Update

### Changes

- QAPR-219727, 219728 - All fields on the FS and FD tab have been changed to be required if the associated box is checked. On the FN tab, the EMIS Grade Next Year has been changed to be required if the associated box is checked. The Fiscal Year Began 9th and Graduation Date fields on the FN tab are not required if the associated box is checked.

## 3. DASL / Progress Book Integration

### School Demographics – Progress Book On

Release 9.0.1 now includes all the updates to handle building-level Progress Book extracts. The “Progress Book On” flag must be checked on the School Demographics page for each building that is to be extracted. No other configuration changes are necessary. When the flag is unchecked, all data from that school will be excluded. If it is checked, the school will be included. All stored procedures have been updated to respect this flag. Also, the Is Progress Book flag should be checked at the district level to ensure it is turned on if any schools within the district use Progress Book.

Please note that DASL 9.0.1 will not update any “Progress Book On” flag values – please review this “Progress Book On” flag to make sure it is set correctly at your buildings and district.
