

DASL Enhancement Requests

District/School	Category	Comments	DASL Ver.	Ticket	Bug
Nordonia	Report Card	Format 20 - Address moved down for mailing		332167	5868
Nordonia	Homeroms	Is it possible to make that a fill in space as well as a drop down so we can type the Homeroom number if we know it.		332169	7215
All	Homeroms	HOMEROOM the drop down list is sometimes in order and sometimes not in order		332175	6825
All	Student Profile	When updating our students profile information have the choice to update contact info		332171	
Nordonia	Security	Assign multiple people at one time to a roles or groups	v1.7	332172	5114
Maplewood	IRN	Sorting by IRN	v1.7	332173	7174
All	Discipline	One screen not multiple for entering information		332175	3258
Maplewood	Reports	Need to run two reports -one that lists any active student with an I and another report that lists any active student with an F. Currently picks up all students, active and inactive.		332178	5290
Revere	Student Profile	Is there a way that once the bus route information is entered that it can appear in		332179	6450
Revere	Reports	The R500 never use to run the "R" status residents going out to another district 0-100% of the time) students and now it does. Is there a way we can at least have the option to select the status codes if we want?		332181	6281
Woodridge	Reports	Honor roll needs to be in Excel. PDF files cannot be changed to satisfy the newspapers. They don't need all the information given on the PDF file.		332183	6120
Green	Reports	On the Marks Analysis Report (R301), could you please add Teacher Name or Id to the "sorting options"?		332185	4946
Cuyahoga Falls	Course History	If you have a course that meets all year, but receives credit each semester, has different grades both semesters, you should be able to enter both grades (semester 1 & semester 2) at the same time & on the same screen. The way this is set up, if the grade is different each semester for the same named course, you have to go back and add a record for each semester.		332187	6835
Revere	Reports	Could you add an "absence reason" field to the EZ Query - Tools - Absence list report?		332191	4969
Cuyahoga Falls	Course History	There are times when a student comes to a district with a course the district does not offer. The system currently wants a code, an abbreviation, a short name and a name for a course. Once an abbreviation is entered, it should auto fill to the other areas. Changes could be made in the short name and the name if necessary.		332192	6836
Cuyahoga Falls	Course History	Once the attempted credit is entered, it should auto fill the earned credits. The earned credit could be deleted if the student failed the course.		332194	6901
Cuyahoga Falls	Course History	Remember the date completed and the school IRN from the previous entry. We need a save and new button that would remember some of what was previously entered.		332203	7117

DASL Enhancement Requests

Revere	Attendance	It would be incredibly helpful if we could vary arrival time in "attendance entry/fast load." I would be able to enter all my tardies with one screen, rather than student by student.			332212	7118
Green	Fees	Add the Homeroom Fee Collection module (located in the Teacher Menu) to the SIS-Fees options. This is a HUGE timesaver, plus the teachers do not log payments, nor would we want them to. I was actually amazed it was NOT included in Fees for office use.			332214	7119
Green	Fees	Misc. Fees (field trips, etc.) using the same method as Homeroom Fee Collection.			332216	7335
All	Reports	The font size of reports such as the r101(student roster) and r201 (class homeroom list) be made larger. When printed out the reports are hard to read.			332217	7121
Kent	Scheduling	In the student profile when you look up edit/view schedule to make changes the terms are not in chronological order. Dropping/adding classes would be easier if in order by period.	v1.73	N/A		N/A
Cuyahoga Falls	Reports	Get an option on the R209 to report drops/adds on the day you make the change and not when it should have happened	v1.8	N/A		N/A
Revere	Transportation	Please add bus route number to EZ Query/Reports/SIS Student Search to the 'Field Selection' tab.			332230	7115
Cuyahoga Falls	SIS	We need a screen to mass enter free and reduced lunch/disadvantaged students. This can be done on an individual basis through the private screen, but this is slow. It would be nice to have a place to mass enter by ID students who are getting free/reduced lunch or disadvantage options.			332232	7122
All	Attendance	In the student profile, in the "I want to" box, like to add attendance or take daily attendance.			332238	5884
Springfield	Teacher	Mutiple Sort options on Lunch Counts				
All	AD-Hoc	EzQuery - Student Search should allow usage of Ad-Hoc memberships			349088	7114
CF	Student Profile	On the student profile page - If an address is put in using capital letters, it converts to lowercase after the verification processes. If you don't go through the address verification check mark, the address will not change to lower case. If we choose to use an upper case address, this should not change to lower case. This causes mailing labels to look strange. This is happening to multiple people on different computers.			389008	BIG
CF	Withdrawal	Power Withdrawal--seniors who are inactive should NOT show up. You should have the option of selecting a specific status like Active.			389012	7437

DASL Enhancement Requests

CF	R703	There needs to be a way to run an R703 to show grades by grade level. Senior grades complete before 9-11. There is no way to send only the senior grades to the teachers, then later, send only the grades 9-11. POISE allowed this option. This is going to create an excessive use of paper and time, plus add confusion to the teachers when verifying grades. We need a way to run our senior information separate from grades 9-11.			389019	5866
CF	Ad-Hoc Membership	Ad-Hoc membership should include the option for building track progression. When students are feeding into a high school from 2 different schools and schedules have to be run, there needs to be a way for the system to separate the schools so the schedules can be sent to each building without sorting manually.			389021	7442
CF	Homerooms	Should be able to run homeroom lists by grade level.			389025	7451
CF	Course Groups	Course groups should have the option to see students who have been scheduled in the group number using a magnifying glass. If you are working in course sections, you have the option to view the students using the magnifying glass. There is no option to view students for course groups. It important to see students who registered for a group. We should not have to break this out to view by sections. This program does not want to recognize the importance of groups.			389036	7450
CF	Attendance	It would be nice if DASL knew that we were typing 3:00 pm when we type 3:00. It automatically defaults to am. Instead of this, it might be better to just be able to put the time in without am or pm attached to it.			389041	7443
CF	Discipline	Discipline infraction should have an option for grade level.			389046	7446
NT	Student Profile	Is it at all possible to put the student's social security number and withdrawal date on the student info screen (the one that has their picture)?			389050	6397/5455
SP	Attendance	I need a sheet for the students with perfect attendance to put in their file.			389054	
CF	Homerooms	Allow homeroom maintenance to sort by grades.			389059	7457
CF	Master Schedule	The R407 needs to have a sorting option of course number like we had in poise.			389061	7218

DASL Enhancement Requests

NT	Attendance	Our attendance secretary wants to know if the attendance entry by student id can be changed so a key on the number keypad (*, +, -, . or /) can be used to separate student numbers instead of the , (comma). It really does make sense, because we use the keypad a lot to enter numbers and it is very time consuming to have to go to the comma to separate. I would like it on the reports where you can enter numbers, too.		354244	7116
ND	Fees	ADD a Comment area for Miscellaneous Fees. For example if our book keeper assigns a "Book Damage" fee to a student it would be nice to have the Teacher's name or course name next to it so that that fee can be applied several times to a student and it does not look like a duplication error.		395834	4393
NT	Scheduling	R407 - Last column where the "Demand" total is located. This number is different		387704	7347
CL	Registration	This district wants auto assign a student number to be an option on Registration Wizard		373123	BIG
